

## RHODE ISLAND DEPARTMENT OF HEALTH Influenza Vaccine Inventory

### URGENT -- ACTION NEEDED

October 6, 2004

Dear Colleague,

In an effort to assure maximum influenza vaccine coverage of priority groups as defined by the Centers for Disease Prevention and Control, we are assessing the amount of influenza vaccine currently available in Rhode Island.

Use the two tables below to report the vaccine you have ordered from Manufacturers/Distributors and the RI Department of Health. **Please complete the inventory table below and fax to the Department of Health at 401-222-1088 by the end of the day on Thursday, October 7<sup>th</sup>.**

If you have any questions, please call Susan Shepardson at 401-222-4603. Thank you for your assistance in providing this important information.

Patricia A. Nolan, MD, MPH  
Director of Health
